Tony Mauro

Premier Kathleen Wynne
Main Legislative Bldg,
Queen's Park
Toronto, Ontario
M7A 1A1

Dear Premier Wynne:

Re: Disregarding Harry Arthurs' Recommendations for Injured Workers

We appreciate your intention to create a fair Ontario. However, your government is not fair to injured workers.

Harry Arthurs was hired by the Workplace Safety & Insurance Board and your government to suggest fair change. He strongly recommended full cost of living adjustments to injured workers on the budget following his report. His report was issued in 2012!

Since that time, your government has not followed through. The inflation protection we have is based on a fraudulent formula. Inflation goes up, and we fall behind. This is a grave injustice and not fair Ontario you promised.

Please review this injustice and ensure that the vulnerable people, like injured workers, find justice and humanity.

Sincerely,
Bright Lights Injured Worker Group
